

BEJAA DIGITAL / GUIDE PRICES

Websites, e-commerce, internal systems, automation and care plans.

These are the ranges Bejaa Digital works to. Where a job lands inside a range depends on scope. Every job still gets a fixed-price quotation before work starts, and a quotation never goes below the bottom of its range.

 **Fixed price before work starts**

 **Hand-coded, source code is yours**

 **30 or 60-day fix warranty**

 **WhatsApp support, Bahasa Melayu or English**

01 / WEBSITES

Build a clear online home for your business.

One-time build price. Hosting and domain are paid by you directly.

 **TIER 1**
Landing Page

For: one product or one offer, orders and enquiries by WhatsApp.

- ✓ 1 page, built for phone screens first
- ✓ Order or enquiry form that opens WhatsApp with the customer's details filled in
- ✓ Your text, photos and logo placed and laid out
- ✓ Page title, description and sitemap set for Google
- ✓ SSL (https) on your domain

1 revision round · 30-day fix warranty

RM 1,500 – 2,500 / ONE-TIME

 **TIER 2**
Business Website

For: a company site that shows what you do and takes enquiries.

- ✓ 5 – 8 pages: home, about, services, projects, contact
- ✓ Bilingual, Bahasa Melayu and English
- ✓ Text and images editable by you after handover (CMS)
- ✓ Enquiry form and WhatsApp button on every page
- ✓ Page titles, sitemap and Google Business Profile link set up
- ✓ SSL (https) on your domain
- ✓ Upper price: extra pages, blog, photo gallery

2 revision rounds · 30-day fix warranty

RM 2,899 – 3,999 / ONE-TIME

 **TIER 3**
Booking or Catalogue Site

For: a site that does a job: bookings, product catalogue, or listings with a simple admin panel.

- ✓ Everything in Business Website
- ✓ One of: booking flow, product or service catalogue, or listings you manage yourself
- ✓ Database and admin login
- ✓ Admin panel to add, edit and hide items without touching code
- ✓ Requests sent to your email and WhatsApp
- ✓ No online payment in this tier. For checkout, see Custom E-Commerce

2 revision rounds · 60-day fix warranty

RM 6,500 – 8,500 / ONE-TIME

Which one fits?

 One offer, sell on WhatsApp → Landing Page

 Show the company, take enquiries → Business Website

 Customers book or browse a catalogue → Booking or Catalogue Site

No website is taken on below RM 1,000, whatever the size. The price covers the build and the after-sales that comes with it.

Hand-coded, runs on your own server.

Source code is yours at handover.

TIER 4
Custom E-Commerce

For: your own online store, hand-coded. Not a Shopify or WooCommerce template.

- ✓ Storefront, product pages, cart and checkout
- ✓ ToyyibPay payment gateway: FPX online banking and cards
- ✓ Discount codes and order tracking for customers
- ✓ Admin dashboard: products, stock, orders, order status
- ✓ Order and payment confirmations by email
- ✓ Lower price: storefront and checkout. Upper price: promotions, bundles and a full back-office

3 revision rounds · 60-day fix warranty

RM 12,000 – 24,000 / ONE-TIME

TIER 5
Internal System or Portal

For: company work that today lives in WhatsApp groups and Excel: approvals, progress, stock, reports.

- ✓ Up to 6 user roles, each with its own portal and permissions
- ✓ Around 40 screens
- ✓ Approval flows, progress tracking and a KPI dashboard
- ✓ Photo and file uploads, access checked per role
- ✓ Static mockup of every screen first. Build starts after you approve it
- ✓ About 12 weeks build after mockup approval

3 revision rounds · 60-day fix warranty

RM 18,000 – 20,000 / ONE-TIME

TIER 6
Automation and Integration

For: a bot that does a repetitive task, or a link between your website and your accounting system.

- ✓ Form-filler bot: reads your Google Sheet or CSV and fills a portal row by row. Fixed price from your written spec: RM 5,500, or RM 7,000 with document uploads
- ✓ AutoCount / ERP sync onto your existing website, read-only, on a schedule: RM 5,000 – 7,000
- ✓ Runs on your PC, or in the cloud as an add-on
- ✓ Log of every run

60-day fix warranty, then Maintenance

RM 5,000 – 7,000 / FIXED PRICE PER JOB, FROM YOUR SPEC

AUTOMATION ADD-ONS

Batch run +RM 1,000

Auto-submit +RM 800

Cloud setup +RM 800

CSV source +RM 500

03 / CARE PLANS AND ADD-ONS

Keep it running after go-live.

Monthly in advance, or yearly where a yearly price is shown. Stop with one month's notice.

ANY WEBSITE

Essential Care

Text and image changes, small fixes, plugin and security updates. About 3 hours a month.

RM 250 / month

ONE SMALL SYSTEM

System Maintenance

Fixes, updates when the target portal or ERP changes. 24 hours a year, then RM 150 an hour.

RM 300 / month · RM 3,600 / year

CUSTOM STORE

E-Commerce Care

Fixes, dependency and server updates, promo and product setup help, order-flow monitoring.

RM 1,000 – 1,500 / month

ONE LIVE INTERNAL SYSTEM

App Maintenance and Ops

Fixes, server and database ops, user support, small changes. 10 hours a month.

RM 2,000 / month

WEBSITE WITH AUTOCOUNT SYNC

ERP-Sync Site Support

Keeps the sync running when the ERP data or website changes. Includes Essential Care.

RM 450 – 850 / month

ADD-ON TO ANY PLAN

Website Monitoring

Uptime and SSL alerts, monthly check and short report.

RM 150 – 250 / month

ADD-ONS

 Extra revision round
RM 80 website · RM 200 system

 Small feature on a finished build
from RM 1,500

 Hours beyond a plan cap
RM 150 – 230 / hour

04 / PROCESS, PAYMENT AND WARRANTY

From first message to go-live.

Six steps. Revision rounds happen in step 5. The last payment is always at go-live.

01

Brief

You tell me what the site or system must do

02

Quotation

Fixed price, scope list, timeline

03

Deposit

Work starts on payment

04

Mockup

You approve the look before code is written

05

Build and Test

Revision rounds happen here

06

Go-live

Final payment, handover, warranty starts

PAYMENT

Websites, Tiers 1 – 3

50% deposit to start, 50% at go-live

E-Commerce and Systems, Tiers 4 – 5

Booking and mockup, development start once the mockup is approved, balance at go-live

Automation, Tier 6

50% on the agreed spec, 50% after the first successful live run

Care Plans

Monthly in advance, or yearly where shown

WARRANTY

30 days on websites, 60 days on systems and automation. Anything that worked at handover and stops working is fixed at no charge. New features, text and design changes are not fixes; they go under a Care Plan or an add-on.

What you pay for directly, what you supply, and how long these prices hold.

PAID BY YOU DIRECTLY

Domain and hosting

RM 150 – 300 a year, set by the registrar and host

ToyyibPay fees

charged per transaction

Business email

about RM 4 per mailbox a month (Zoho Mail Lite)

AutoCount SDK licence

through your dealer, if a sync writes back to the ERP

Third-party services

SMS, maps or other paid APIs, if the job uses them

WHAT YOU SUPPLY

Text, photos, logo and any brand colours

Access to your domain, hosting and payment gateway accounts

Photography and copywriting are not part of a build price

TERMS

Timeline is set in the quotation, not here. It depends on scope and on how quickly content and approvals come back

Handover: source code, database and admin access are yours at final payment

Validity: these ranges hold until 9 December 2026. A quotation received before then keeps its price for 30 days
